Letter of Recommendation for Asbjørn Lauritsen

I had the privilege of supervising Asbjørn Lauritsen and his study-group after they had contacted me following their victory in a case competition for Billund Airport, Denmark. They expressed their interest in pursuing their bachelor's thesis under my guidance. Asbjørn and his group demonstrated their engineering and problem-solving skills, which they had acquired at Aalborg University, to analyze the challenges faced by the logistics and transportation unit at Billund Airport and developed an effective solution.

Asbjørn Lauritsen and his group's dedication and competence were evident throughout their collaboration. They exhibited a strong understanding of engineering principles and a problem-oriented approach, which they skillfully applied to identify and address the issues within the logistics and transportation department at Billund Airport. They were independently able to gather research and turn the theory into practice, without much outside interference. Their work resulted in innovative and practical solutions that significantly contributed to improving operations, which Billund Airport also recognized, when they awarded them the winning prize in the case competition.

Asbjørn Lauritsen is a motivated and intellectually curious student who exhibits a strong work ethic and a commitment to learning. His dedication to problem-solving and his ability to apply theoretical knowledge to real-world challenges are commendable. Asbjørn and his group's thesis project exemplified their capacity to work diligently and produce valuable contributions to the field of engineering.

I have no doubt that Asbjørn Lauritsen possesses the qualities and skills that make him an exceptional candidate for the technical internship that you offer.

If you require any further information or have specific questions about Asbjørn Lauritsen's performance, please feel free to contact me.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Thomas B. Moeslund'.

Professor Thomas B. Moeslund

Head of Visual Analysis and Perception Lab, Aalborg University, Denmark

Head of Section for Media Technology, Aalborg University, Denmark
